Program Description

The Carpentry program prepares students to build and repair structures in compliance with existing codes. Students learn skills needed for residential and commercial construction including blueprint reading, material estimating, cabinet building, and framing. Students will work with a variety of hand tools, power tools, and construction equipment, and have learning experiences both on and off-campus. The student will have the opportunity to act as a lead carpenter, experiencing being in charge of other workers and acting as supervisor on a construction project activity.

Program Outcomes

- Install floor, walls, and roofs.
- Install exterior finishes.
- Install interior finishes.
- Estimate building materials.
- Read Construction Blueprints.
- Perform carpenter activities safely.
- Coordinate construction activities.
- Acquire building materials.
- Supervise and act as a lead carpenter.
- Strengthen knowledge in General Education fields.
