Program Description

The Physical Therapist Assistant (PTA) program provides an opportunity to become an educated health care provider who delivers physical therapy services under the supervision of a physical therapist. The PTA is able to observe and assess the patient's condition, teach exercises and activities of daily living, use specialized equipment, demonstrate professional skills while implementing treatment procedures, observe the patient's response to treatment, and document. Physical therapy practitioners minimize physical disability, movement dysfunction, and pain. Physical therapist assistants may find opportunity to work in a variety of settings.

Program Outcomes

- Work under the supervision of a physical therapist in an ethical, legal, safe, and effective manner.
- Implement a comprehensive treatment plan developed by a physical therapist.
- Communicate regularly with supervising physical therapists about the patient's progress and the need for adjustments to be made by the physical therapist in treatment procedures in accordance with changes in patient status.
- Perform appropriate data collection techniques within the knowledge and limits of practice to assist supervising physical therapists in monitoring and modifying the plan of care.
- Interact with patients and families in a manner which provides the desired psychosocial support including the recognition of cultural and socioeconomic differences.
- Participate in the teaching of other health care providers, patients and families.
- Document relevant aspects of patient treatment.
- Participate in discharge planning and follow-up care.
- Demonstrate effective written, oral, and nonverbal communication with patients and their families, colleagues, health care providers, and the public.
- Demonstrate an understanding of levels of authority and responsibility; planning, time management, supervisory process, performance evaluations, policies and procedures; fiscal considerations for physical therapy providers and consumers; continuous quality improvement; and evidence-based practice.
- Demonstrate professional behaviors required for success in the field of physical therapy.
- Identify career development and life-long learning opportunities.
 - Demonstrate knowledge of physical therapy principles and concepts.

Pre-program Requirements

Traditional PTA Program (On-Campus) – Applications due March 1st for fall start

Background Study approval is required from the State of Minnesota. Prior to acceptance into the program, students will need to complete the following:

- All Pre-Program courses, with a minimum cumulative GPA of 3.0 or better (excluding BIOL 1005).
- A Verification of Volunteer Work form.
- Submit a program application.

Upon acceptance into the program, students participating in clinicals must have the following:

- A recent physical examination including current immunizations and current negative Tuberculosis (TB) screening.
- Current certification in American Heart Association: BLS Healthcare Provider or American Red Cross: BLS/CPR for Healthcare Providers is required for all clinical courses. *ALTH 1430 will satisfy this requirement for one year.*

Military Bridge Track (Online) – Applications accepted year-round

Pre-Program courses may be completed concurrently with the program courses. Prior to acceptance into the program, students must complete the following:

- Completion of an approved military training program per current program admission criteria.
- Submit a program application, including a recommendation from a supervising physical therapist verifying six-months post-training work experience, and a skills documentation log.

With approved training and work experience, Military Bridge track students will receive a total of 54 credits for courses indicated with a (#).

Federal background study approval is required through a designated provider.

Qualified applicants should be aware that program class sizes are limited, which may delay acceptance into the program.

Students may be required to complete additional (or less) coursework, dependent upon the results of Computerized Placement Test (CPT) and/or previous coursework completed or certifications awarded. General Education courses required by this program may be taken during any term, including prior to formal program acceptance, as long as the specific prerequisites for that course have been met. Please check with your advisor. All courses in the program need to be completed with a grade of “C” or better.

Successful entry into this program requires a specific level of skill in the areas of English, mathematics, and reading. Program entry will depend, in part, on meeting the prerequisites listed below.
