

## Auto Service Technology Diploma - 64 credits

Program Area: Auto Service (Fall 2020)

**\*\*\*REMEMBER TO REGISTER EARLY\*\*\***

### Program Description

In the Auto Service Technology program, students will have the opportunity to learn skills to prepare for entry-level positions as automotive technicians. These skills will also be helpful in preparing for A.S.E. (Automotive Service Excellence) certification. Courses of instruction cover all systems of the automobile, including basic operation and parts identification with the objective of developing diagnostic skills. Automotive service technicians, in addition to enjoying working with their hands, must also have the ability to systematically diagnose technical automotive problems.

### Program Outcomes

- Demonstrate the skills and knowledge necessary to utilize service literature
- Demonstrate the skills and knowledge to perform repairs following environmental and ethical guidelines
- Exhibit the safety procedures and practices necessary to work efficiently and professionally in the automotive industry
- Demonstrate the ability to maintain and repair tools and equipment in the automotive shop
- Demonstrate the skills and knowledge necessary for diagnosis and repair of automotive heating and air conditioning systems, electrical systems, drive train systems, steering and suspension systems, brake systems, drive ability systems, engine systems, and transmission systems
