

Professional Nursing, AS Degree- 64 credits

Program Area: Health (Fall 2018)

*****REMEMBER TO REGISTER EARLY*****

Program Description

The Professional Nursing program is an Associate of Science Degree Program. The AS Nursing Program prepares students who are nursing assistants to complete a program of study in professional nursing that utilizes both theory and clinical course work as well as laboratory simulation. Upon completion of this program, graduates are eligible to take the NLCEX-RN (National Council Licensure Examination for Registered Nurses). Graduates of this program may apply to another college or university to pursue a bachelor's degree in nursing after completing their AS degree and becoming a registered nurse.

Program Outcomes

- Adapt to the diverse and ever-changing roles of the professional nurse in a variety of health care systems.
- Integrate critical reasoning and evidence-based practice while providing safe and competent care to clients in all stages of development and at any point in the health/illness continuum.
- Utilize the nursing process in meeting the health care needs of individuals of diverse sociocultural identities across the lifespan.
- Interact effectively with clients, peers, and members of other health care disciplines utilizing current technologies.
- Provide nursing care that is reflective of the ethics and values of the nursing profession and to be mindful of each client's inherent worth and dignity.
- Assess patterns and activities that may lead to unsafe practice.

Qualified applicants should be aware that program class sizes are limited, which may delay acceptance into the program.

You may be required to complete additional (or less) coursework, dependent upon the results of your
