

Accountant AAS Degree - 60 credits

Program Area: Accounting (Fall 2016)

*****REMEMBER TO REGISTER EARLY*****

Program Description

The AAS Accountant degree prepares students for successful entry into the job market upon graduation or for continuation onto their Bachelor's degree.

A solid understanding of ethics and the ability to apply critical thinking skills to problem resolution is interwoven throughout the curriculum. Students demonstrate the mastery of their accounting skills through hands-on experiences as they complete comprehensive problems and case studies involving payroll, tax return preparation, transaction analysis, financial statement preparation and analysis, budget preparation and analysis, and business simulations using software programs that are popular in the industry. Managerial accounting, nonprofit accounting, internal control analysis, and spreadsheet skills are also essential components developed within our accounting program.

Many of the courses in the Accounting AAS Degree are offered on-site and all of the courses are offered online.

Program Outcomes

Students will possess a strong background in GAAP (Generally Accepted Accounting Principles), accounting theory, accounting practices, and be able to:

- Understand the laws, regulations, and the codes of the accounting profession that are applicable to and have an impact on the business and accounting environment
- Analyze and properly record routine to advanced business transaction and appropriate adjusting journal entries using a variety of industry software
- Prepare and process closing entries
- Prepare routine to advanced formal financial statements
- Prepare and file routine to advanced payroll tax returns using industry software
- Prepare and file individual tax returns using industry software
- Analyze and interpret accounting records and prepare appropriate reports for management using industry software and spreadsheet programs
