

Engineering CAD Technician Certificate - 24 credits

Program Area: Engineering CAD Technology (Fall 2016)

*****REMEMBER TO REGISTER EARLY*****

Program Description

The Engineering CAD Technician program prepares students to translate the ideas, sketches, and specifications of engineers and designers into workable plans which are used in product fabrication. Students learn to use engineering technology in determining exact specifications for new product design or modification, or redesign of present products. The course begins with instruction in basic drafting skills and advances to more complex technological areas. Major emphasis will be on the application and use of computer aided design.

This 24-credit Certificate seamlessly transfers to the Engineering CAD Technology Diploma (60 credits) and the AAS (67 credits).

This certificate is designed to provide a basic working knowledge of CAD and/or enhance the education of a student who may occasionally come in contact with engineering CAD technology through another related technical field of study. This certificate is not intended to take the place of either the two-year AAS degree or the two-year diploma degree from the Integrated Manufacturing – Engineering CAD Technology program.

REQUIRED COURSES			
Number	Name	Credits	Term
CADE 1407	AutoCAD I	3	
INMG 1410	Mechanical Blueprint Reading	3	
CADE 1450*	Mechanical Details	3	
CADE 1468	SolidWorks I	3	
CADE 1490*	Industrial/Structural CAD Applications	3	
CADE 2400*	AutoCAD II	3	
CADE 2472*	AutoCAD Design Project	3	
<i>Choose from the following:</i>			
	INMG 1420 Design Application Concepts I	3	
	WLDG 1560 Gas Metal Arc Welding I		
	CADE 2407 Engineering Technology Internship (variable cr.)		
	MTCC 2504* CAD CAM		
TOTAL CREDITS		24	

**Requires a prerequisite or a concurrent course*

Program Outcomes

- Design products for manufacture using 2D and 3D standards
- Apply orthographic CAD design procedures to working drawings
- Perform advanced CAD software applications
- Create a capstone design project incorporating advanced CAD and industrial/mechanical applications

Pre-program Requirements

Successful entry into this program requires a specific level of skill in the areas of English, mathematics, and reading. Program entry will depend, in part, on meeting the prerequisites listed below:

English/Reading:

- A score of 78 or higher on the reading comprehension portion of the Accuplacer, or
- Completion of ENGL/READ 0950 or 0955 (or equivalent course or higher). ENGL/READ 0955 may be taken concurrently with Semester I coursework.

Mathematics:

- A score of 33 or higher on the **Elementary Algebra Skills** portion of the Accuplacer, or
- Completion of MATH 0520 (or equivalent course or higher). MATH 0520 may be taken concurrently with Semester I coursework.
