Program Description

The Massage Therapist Program prepares the graduate for the operation of his or her own massage therapy clinic or employment in another health care related setting. The graduate therapist is able to observe and assess the client's musculoskeletal system, propose a treatment plan, implement the treatment plan and observe the client's response to the treatment. Stress reduction, Deep Tissue, Neuromuscular, Lymphatic, Somatic, Sports, Swedish, Geriatric and other manual soft tissue techniques are used. Documentation is done to record muscular pain and restrictions, postural distortions, fascial adhesions and the effects of stress on the body. Small business start-up and management provide a foundation for entrepreneurs. Therapists may find opportunities to work in a variety of settings. Most opportunities are in private practice.

Program Outcomes

- Knowledge and ability to observe and assess the client's musculoskeletal, connective tissue and lymphatic systems
- Propose and implement a treatment plan based on the client's goals
- Observe and document the client's response to the treatment
- Produce a comprehensive personalized business plan for starting, managing and promoting a massage practice
- Demonstrate comfort with ethical issues of running a business and working hands-on in an intimate manner
- Demonstrate the ability to adapt massage techniques to pregnant, geriatric, infant and athletic populations
- Demonstrate self-awareness and the theoretical understanding of how to prevent therapist injury and burnout
- Demonstrate a professional level of understanding of human pathology to recognize massage contraindication and cautions
