### Program Description

The Paralegal Studies program is a course of study for those interested in becoming non-lawyer legal professionals. A paralegal (sometimes called a legal assistant) is, in the words of the American Bar Association, a person "who performs specifically delegated substantive legal work for which a lawyer is responsible." Paralegal employers prefer applicants who have completed a formal paralegal training program. Students learn to use the technology and software commonly found in a modern law office and receive practical instruction in legal terminology, state and federal court systems, legal document preparation, substantive and procedural law, legal research, and client interaction.

*The Paralegal Studies Associate in Applied Science degree is recommended for those students intending to go directly into the workforce on graduation.*

### Program Outcomes

- Demonstrate knowledge of legal terminology, the American legal system, and state and federal court structure, rules, and procedures
- Exhibit understanding of the paralegal's role in the delivery of legal services, including systems for organizing documents, maintaining client relationships, conflict of interest management, calendaring, and billing

- Demonstrate knowledge of legal principles and procedures in at least one specialty area, such as family law, bankruptcy law, real property law, torts and personal injury law, or wills and probate
