Production Technologist Certificate - 8 credits
Program Area: Integrated Manufacturing (Fall 2017)

***REMEMBER TO REGISTER EARLY***

Program Description
This certificate aligns with the Manufacturing Skill Standards Council’s (MSSC) assessment and certification system for Safety, Manufacturing Processes and Production, Quality Practices and Measurement, and Maintenance Awareness. The core curriculum is based upon federally endorsed national standards for production workers. Students who complete these courses have the skills and knowledge to pass the credentialing exam and gain a nationally recognized credential.

This 8-credit Certificate seamlessly transfers to the Machine Production Technologist Diploma (34 credits), the Advanced Machine Production Technologist AAS (60 credits), the Welding Technologist Diploma (32 credits) and the Advanced Welding Technologist AAS (60 credits).

Program Outcomes
- Explain performance of preventative maintenance
- Discuss the concepts of routine repair
- Discuss monitoring indicators to ensure correct operations
- Explain periodic or statistically based internal quality audit activities
- Explain continuous improvement
- Explain communication regarding quality problems
- Discuss how to determine resources available for the production process
- Identify set-up and verification of equipment for the production process
- Describe the process of setting team production goals
- Explain characteristics of working in a safe and productive manufacturing workplace
- Identify procedures related to performing emergency drills and participating on emergency teams
- Explain proper safe use of equipment

Pre-program Requirements
There are no specific program prerequisites for this certificate.
